Reklemel™ active

**NEMATOCIDE**

# Potatoes

Salibro® nematicide with Reklemel™ active will offer protection to roots from plant-parasitic nematodes while preserving the life of your soil. As the first sulfonamide nematicide, Salibro will provide a new mode of action for effective resistance management with a more favorable environmental profile than other products on the market today. Salibro offers exceptionally high compatibility with soil health, including beneficial nematodes, beneficial soil fungi and soil bacteria – a key differentiator from other nematode control products.

### Features & Benefits

- **Quick and effective** plant-parasitic nematode control in a variety of crops
- **New and unique** mode of action, Reklemel active
- **Superior protection** of crop yield and quality
