

Seed Selection for Greatest Yield Potential

Why is seed selection so important?

"Yield potential comes from the seed," says Eric Scherder, U.S. Technical Lead, Corteva Agriscience. "Every decision a farmer makes after seed selection is to maintain the yield potential that the seed allows for."

Before deciding on which seed to plant, Scherder says, farmers should consider several factors, including:

- | Supplier reputation
- | Field history
- | Previous pest, weed and disease issues
- | Yield potential of the ground itself

Another question that you will likely find customers asking is, "Which herbicides and defensive traits are most important for my operation?" It's important to understand that the trait package your customer selects will dictate which herbicide options are available and unavailable the following year.

Enlist® traits are available in high-performing genetics for soybeans and corn to offer the greatest yield potential. "Every field is different, and every year is different," Scherder explains. "Choosing a weed control system with more flexibility will allow farmers to tailor tank-mix and residual herbicide partners, like Enversa™ herbicide, based on field history, pest prevalence and weather conditions."

ENLIST® WEED CONTROL SYSTEM

Herbicide tolerances:
Enlist® herbicides
Glyphosate
Glufosinate

Herbicide tolerances:
Enlist herbicides
Glyphosate
Glufosinate
FOP herbicides*

Convenient, proprietary blend of 2,4-D choline and glyphosate

Straight-goods 2,4-D choline with additional tank-mix flexibility

* Not all FOP herbicides are labeled for use in Bt corn products with the Enlist® trait. Before use, review the product label to ensure the product is labeled for use on Bt corn with the Enlist trait.

™ * Trademarks of Corteva Agriscience and its affiliated companies.

The transgenic soybean event in Enlist E3® soybeans is jointly developed and owned by Corteva Agriscience and M.S. Technologies L.L.C. Following burndown, Enlist Duo® and Enlist One® herbicides with Colex-D® technology are the only herbicides containing 2,4-D that are authorized for preemergence and postemergence use with Enlist® crops. Consult Enlist® herbicide labels for weed species controlled. Enlist Duo and Enlist One herbicides are not registered for use or sale in all states and counties; are not registered in AK, CA, CT, HI, ID, MA, ME, MT, NH, NV, OR, RI, UT, VT, WA and WY; and have additional subcounty restrictions in AL, GA, TN and TX, while existing county restrictions still remain in FL. All users must check "Bulletins Live! Two" no earlier than six months before using Enlist One or Enlist Duo. To obtain "Bulletins," consult epa.gov/espp/, call 1-844-447-3913, or email ESPP@epa.gov. You must use the "Bulletin" valid for the month and state and county in which Enlist One or Enlist Duo are being applied. Contact your state pesticide regulatory agency if you have questions about the registration status of Enlist® herbicides in your area. ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. IT IS A VIOLATION OF FEDERAL AND STATE LAW TO USE ANY PESTICIDE PRODUCT OTHER THAN IN ACCORDANCE WITH ITS LABELING. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USE IN THE STATE OF APPLICATION. USE OF PESTICIDE PRODUCTS, INCLUDING, WITHOUT LIMITATION, 2,4-D-CONTAINING PRODUCTS NOT AUTHORIZED FOR USE WITH ENLIST CROPS, MAY RESULT IN OFF-TARGET DAMAGE TO SENSITIVE CROPS/AREAS AND/OR SUSCEPTIBLE PLANTS, IN ADDITION TO CIVIL AND/OR CRIMINAL PENALTIES. Additional product-specific stewardship requirements for Enlist crops, including the Enlist Product Use Guide, can be found at www.traitstewardship.com. POWERCORE® is a registered trademark of Bayer Group. POWERCORE® multi-event technology developed by Corteva Agriscience and Bayer Group. Always follow IRM, grain marketing and all other stewardship practices and pesticide label directions. Bt products may not yet be registered in all states. Check with your seed representative for the registration status in your state.

Enversa™ herbicide is not registered for sale or use in all states. Enversa is not available for sale, distribution or use in Nassau and Suffolk counties in the state of New York. Contact your state pesticide regulatory agency to determine if a product is registered for sale or use in your state. Always read and follow label directions. LibertyLink® and the Water Droplet Design are registered trademarks of BASF. Roundup® and Roundup Ready® are registered trademarks of Bayer Group. © 2025 Corteva. 025750 LC (02/25)
