

GrazonPD3™

HERBICIDE

Bindweed and Leafy Spurge Solution

GrazonPD3™ Herbicide

GrazonPD3™ herbicide is a new, broad spectrum residual herbicide that controls more than 70 weeds, as well as suppresses select brush species. It's the market's best choice for control of bindweed and leafy spurge. Containing 2,4-D Choline and Picloram, GrazonPD3 is backed by trusted and proven active ingredients, providing peace of mind.

Application Recommendations

- Apply GrazonPD3 with a minimum of 10 gallons of water per acre using ground equipment or 3 or more gallons per acre by aerial application.
- Use GrazonPD3 at 40 fluid ounces per acre to control leafy spurge before flower. For fall application apply 40-80 fluid ounces per acre after the first hard freeze.
- To enhance foliage wetting and coverage, an approved non-ionic surfactant (NIS) may be added to GrazonPD3.
