

Utrisha[®] N

Fixes nitrogen from the air and converts it for the plant

- ① **Enters the plant** through the stomata and gets into the leaf cells
- ② **Converts N₂ from the air into ammonium** resulting in a constant supply of amino acids to the plant

Effective

Enhances Nitrogen Use Efficiency (NUE) and reduces dependency on nitrogen uptake from the soil

Sustainable

Natural bacteria that can supplement nitrogen to the plant

Composition

Methylobacterium symbioticum

Application

Timing: Apply 3 leaf to early branching

Rate: 5 oz/A

- Best applied in the early morning, when a greater number stomata are open

Recommendations

- **Apply in healthy crops** unaffected by poor nutrition or other biotic/abiotic stresses
- **Apply with sufficient plant biomass**, when the crop presents good soil coverage
- **Mix with water only** for best product performance
- **Spray volume:** between 10 and 25 GPA
- **Water total chlorine content:** < 2 ppm
- **Water pH:** between 5 and 8
- **Rain fast:** one hour after application
