

Insert Date, 2024

Dear (Customer Name):

Thank you for previously signing the Corteva Agriscience™ Technology Use Agreement (TUA). Included is a sample of the current TUA, and the Corteva TUA Update Notification. Your Corteva license number is (need to autofill/match) which can be applied to Corteva microbial or seed products. Please retain this number in case your retailer or seed seller requires it when you are purchasing a product with Corteva technology from either Corteva or one of our licensees.

The TUA serves as an agreement between the customer and Corteva demonstrating that the customer understands and agrees to follow all stewardship and legal responsibilities related to their purchase. The TUA protects two major components: (1) technology use (e.g. Enlist® weed control system, Bt Corn, etc.) and (2) intellectual property rights (e.g. germplasm, traits, patents and other proprietary know-how). Corteva makes substantial investments to bring new traits, technology, germplasm, and products to the market. It is important to protect these investments so Corteva can continue to fund research and business development initiatives.

The Corteva TUA grants customers access to all current and future product offerings without the need to sign additional TUAs. The **Update Notification** is a required mechanism to inform customers on changes to the TUA along with important product usage information in which customer compliance is required. The Update Notifications will be delivered annually and will be distributed electronically, via postal mail and will also be made available on <http://www.traitstewardship.com/>.

The Update Notification requirements serve as an amendment to the Corteva TUA you previously signed, and your receipt of these Update Notification requirements constitutes your acceptance of the amended Corteva TUA. **NO ACTION IS REQUIRED IF YOU ACCEPT THE UPDATES REFLECTED ON THE UPDATE NOTIFICATION.**

If you do not accept the updates, an Update Notification rejection can be submitted. Keep in mind rejecting the Update Notification will result in your TUA being nullified resulting in your inability to purchase Corteva seed products or Corteva Sourced Technology in the future.

If you wish to cancel your TUA or make any changes to your demographic details (i.e., name, address, phone number, email) associated with your TUA you may do so directly at www.agcelerate.com or by calling AgCelerate at 1-866-784-4630.

Any additional questions can be submitted by sending an email to cortevastewardship@corteva.com and include your full name, address, and TUA License Number and explanation of what your question or requested action you want to have taken.

Thank you for your business.

Corteva Agriscience™ Stewardship Team

2024 Corteva Agriscience™ Technology Use Agreement Update Notification

TUA Updates

- Replace the following Prohibited Activities with respect to Enlist® herbicide use:
 - following burndown, use any pyridine auxin herbicides (e.g., triclopyr, fluroxypyr) on emerged Enlist® crops;
 - following burndown, use any phenoxy auxin herbicide-containing product (e.g., containing 2,4-D, 2,4-DB, MCPA, dichlorprop, LV6, MCPB, mecoprop, which is NOT expressly labeled for use in conjunction with Enlist crops, including pre-emergent use; and/or
 - following burndown, use any AOPP herbicides (e.g., quizalofop, cyhalofop, haloxyfop, diclofop, fenoxaprop, fluazifop) not expressly labeled for Enlist® corn on emerged Enlist corn;

- With the following Prohibited Activities with respect to Enlist herbicide use:
 - following burndown (including pre-emergent use), use any phenoxy-carboxylate herbicide-containing product (e.g., containing 2,4-D, 2,4-DB, MCPA, dichlorprop, MCPB, mecoprop) unless it is expressly labeled for use in conjunction with Enlist crops and contains 2,4-D choline with Colex-D® technology;
 - following burndown, use any AOPP herbicides (e.g., quizalofop, cyhalofop, haloxyfop, diclofop, fenoxaprop, fluazifop) on emerged Enlist corn, unless the product is expressly labeled for use in conjunction with Enlist corn;
 - for Spring burndown, preplant, preemergence or post emergent application, use any pyridyloxy-carboxylate (e.g., fluroxypyr, triclopyr) herbicides on Enlist® cotton or Enlist E3® soybean unless the product is expressly labeled for use on Enlist cotton or Enlist E3 soybean.

Key Updates - Intellectual Property (IP) Protection

- Enlist herbicides with Colex-D technology are the ONLY 2,4-D containing products authorized and specifically labeled or use with Enlist crops.
- Corteva is a member of SIPA, and reports made on the SIPA tip line or via the website regarding Corteva products will be directed to our Commercial Compliance Team.
- If you suspect illegal use of Corteva traits or germplasm, reports can be made anonymously using the Industry Tip Line (**1-844-SEED-TIP**) or website (**seedipalliance.com**) which are hosted by an independent organization, the Seed Innovations Protection Alliance (SIPA).
